

Qatar's MDP4 achieves 15 million man-hours LTI Free

On the **1st of April 2019**, Qatar's Msheireb Downtown Doha project -phase 4 (MDP4) achieved 15 million man-hours lost time injury (LTI) free. On this occasion, the project organized a [health and safety](#) awards ceremony on the 15th of April. During the ceremony 100 awards were distributed to individuals who contributed to making this achievement possible.

The ceremony was attended by the client (Msheireb Properties), the project management consultant (TIME Qatar) and a representative from the UN's International Labor Organization (ILO). A certificate signed by the CEO of Msheireb Properties, Mr. Ali Al Kawari was presented to TEYSEER (TCC) and CCC joint ventures' (JV) project director Mr. Ihab Al Sharif, in recognition of the project's achievements.

In his speech, Mr. Al Sharif thanked the awardees for their significant contribution and invited them to continue with their spirit of partnership on the road to ensure that 'we can all go back home safely' with the timely completion of the project.

ILO Representative, Mr. Steve Needham, recognized the safe work and the remarkable achievements completed. Mr. Needham thanked TCC and CCC JV for inviting him to take part in this event and he acknowledged the team's efforts in participating in Qatar's first [Occupational Safety and Health day](#) activities.

The Client's (MP) Senior HSE Manager, Mr. Husain Ali, awarded TCC/CCC JV's Project Director with a certificate to mark the achievement. Mr. Ali thanked the project team for their outstanding efforts and urged them to continue with the safe work.
